

# Built in Harbor. Ready for open waters.

At Dev Harbor, we build custom software that's more than just code.  
It's the foundation for your journey.

TRUSTED BY COMPANIES WORLDWIDE

VALUES

## Core Values

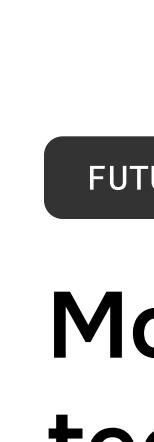

### User Experience

We create beautiful & clean apps that people enjoy using daily

### Tailor-Made Solutions

We are developing software specifically for every individual requirement

### Simplicity

We always strive to find and implement the simplest solution for any given problem

### Scalable Design

We build every application with stable growth and future improvements in mind

### Performance

We take great measures to ensure all our applications are blazing fast

### Responsive design

We design all our apps to work perfectly with laptops, tablets and smart phones

FULLY CUSTOMIZED

## Custom software development

We provide custom software development services that meet the needs of businesses worldwide. Our end-to-end solutions cover design, development, and consultancy.

We work with you to create a unique system that meets your specific requirements and helps you achieve your objectives.

Our goal is to provide you with high-quality, user-friendly software that optimizes your operations and fits your budget.

FUTURE

### Modernizing legacy technology

We help businesses modernize their legacy technology, improving their systems' functionality, efficiency, and security.

Our team offers end-to-end solutions for legacy system migration, modernization, and maintenance, ensuring that your business remains competitive and future-proof.

BOOK A MEETING

## Contact Us

You can reach out through the contact form, or via our office email below. Either way we will review your request and get in touch with you as soon as possible.

We are looking forward to hearing from you!

PRICING

## Basic Contract Options

We are flexible towards your business processes and requirements. If the contract options below don't fit what you're looking for, we can always create a custom model.

### Fixed Price

- Price defined in advance
- Detailed software specifications required
- Exact features specified from the start
- Standard architecture
- Fixed project requirements
- Longer preparations

### Time & Materials

- Pay by actual time spent
- Detailed vision not necessary
- Dynamic project requirements
- Agile development
- Flexibility for direction changes
- Less time planning beforehand
- Faster project start
- More control over project

### Dedicated Dev

- Secured professional
- Great for long-term projects
- Changing requirements
- Maintenance
- Integrated into client's team
- Part-Time or Full-Time

## Expertise

### Web Apps

Building software for businesses of any size, from small applications to large-scale systems

### Native Mobile

Engaging and intuitive mobile experiences for your audience on-the-go

### Consulting

Expert guidance and solutions to help your business thrive in the digital age

## Pricing

We offer three main pricing models:

### Modernizing legacy technology

We help businesses modernize their legacy technology, improving their systems' functionality, efficiency, and security.

Our team offers end-to-end solutions for legacy system migration, modernization, and maintenance, ensuring that your business remains competitive and future-proof.
